T.N.F.F.T.P.O.C.T.T.A.H. INTERVENES AT U.S.D.A. PICNIC

Plans were well underway for the first social outing of the 1960 USDA Club in the form of a picnic; to be held August 26th, at Winfrey Point Lodge on White Rock Lake, when the T.N.F.F.T.P.O.C.T.T.A.H. (The National Foundation for the Prevention of Cruelty to the American Hamburger) intervened and laid down iron clad rules and regulations regarding the preparation of the hamburgers to be served at this affair.

In order to comply with the T.N.F.F.T.P.O.C.T.T.A.H. regulations it was necessary to call on CSS top Chiefs to do the cooking. Therefore all handling of food including preparation in cooking will be done by the following Les Gourmet: (for us common folk "cooks")

TO YOUR HEALTH:

Just a reminder that polio vaccine is still available for those who have not completed the series of four injections - or for those who need to begin the series.

A small number of USDA employees paid for the series or for 4th injections and did not receive them. If you are one of these, you should contact the Health Unit, CSS Commodity Office and receive the injections.

This program is still sponsored by the USDA Club at the cost of \$.50 per injection. The vaccine is given by authorization from Dr. R. B. Wolford, Regional Medical Officer, U.S. Civil Service Commission.

Jean Morgan, R.N.

Safety Note: ACCIDENTS DON'T JUST HAPPEN! THEY ARE CAUSED! !
